# Your Trusted Natural Stone Supply Partner

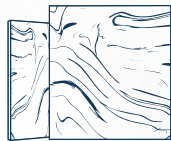

Elis Stone is a **London-based** natural stone supplier focused on serving the demands of the industry professionals. With marble at the core of our collection, complemented by a refined range of natural stones, we provide **specification-ready** materials for residential, commercial and hospitality projects.

Backed by extensive industry experience and a **strong sourcing network**, Elis Stone offers **reliable supply, careful quality control** and **competitive pricing**. Our approach is built on consistency, responsive service and a clear understanding of project requirements from specification through to delivery.

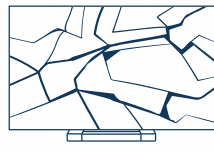

When material integrity, visual impact and dependable delivery matter, Elis Stone stands ready to support your next project.

# What We Do

At Elis Stone, we make natural stone procurement straightforward - from selection to delivery. Whether you're choosing from our inventory or requesting a specific stone for a project, we support every step with expert guidance, careful material control, and dependable service.

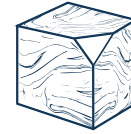

## Natural Stone Supply

A curated range of **marble, travertine, onyx & limestone** in multiple finishes and formats, ready for residential and commercial needs.

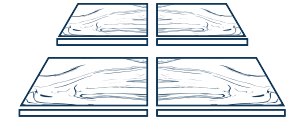

## Stone Sourcing

We source natural stone based on your brief, reference image, or sample with a hands-on approach that includes visiting quarries and trusted suppliers to find the right match.

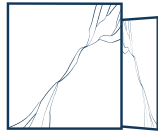

## Block Trading

Block supply for fabricators, wholesalers and large-scale buyers with **consistent grading, selection support and controlled dispatch** to help you plan with confidence.

## Cut-to-Size Production

Project-ready stone cut to your specifications; **slabs, tiles, cladding, stairs, and bespoke pieces** prepared to reduce waste and save time on site.

## Finishes & Surface Treatments

From **polished** and **honed** to **brushed, leathered, and more**, we help you select the right finish for aesthetics, durability and slip resistance.

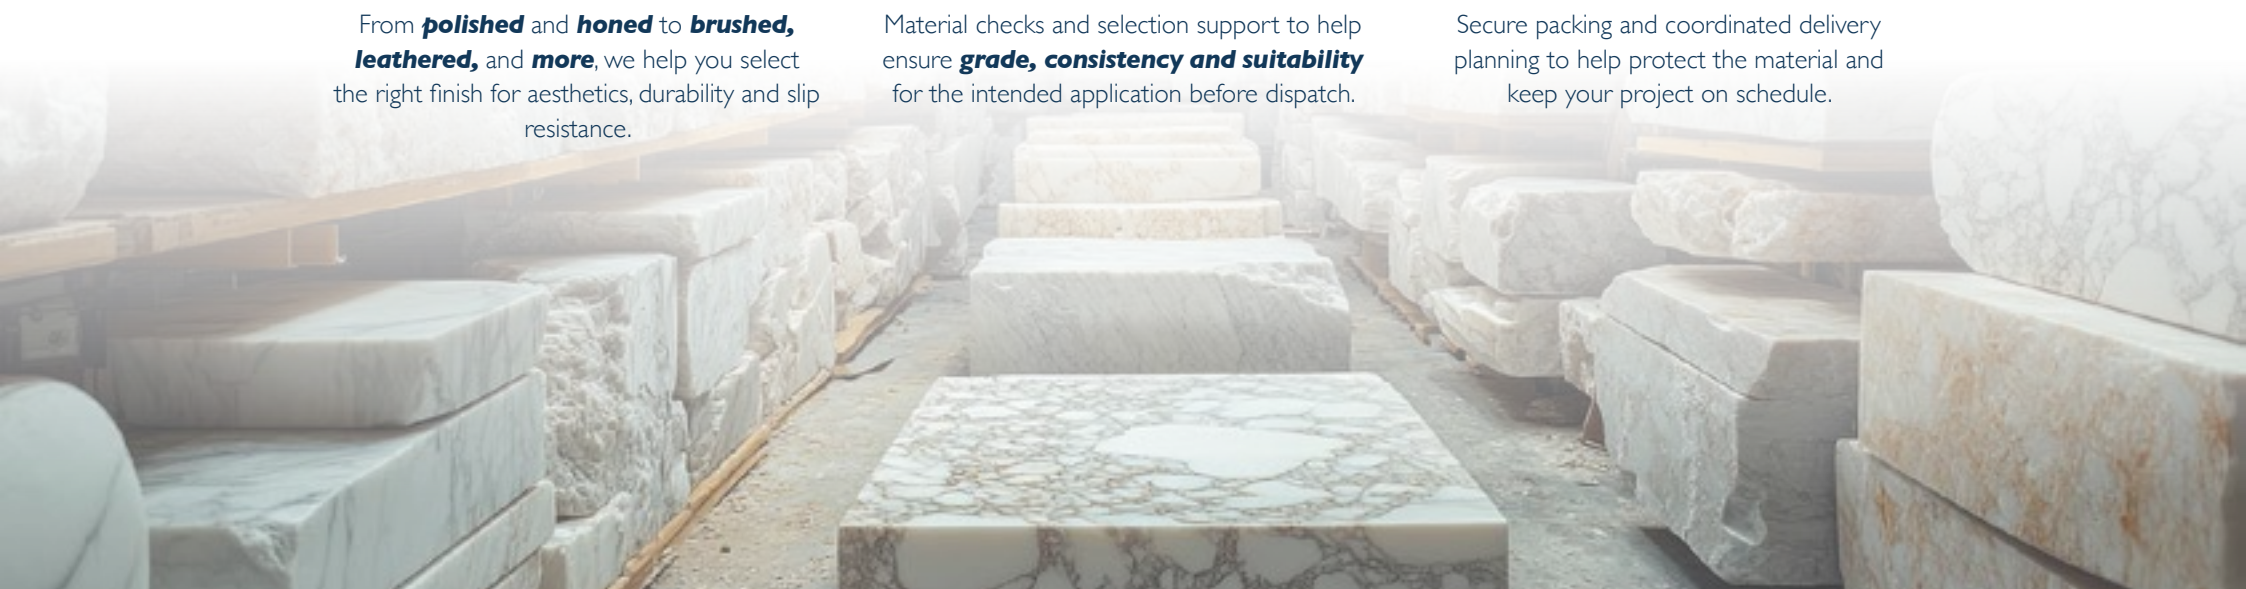

## Quality Control & Material Checks

Material checks and selection support to help ensure **grade, consistency and suitability** for the intended application before dispatch.

## Packing, Logistics & Delivery

Secure packing and coordinated delivery planning to help protect the material and keep your project on schedule.
